

The Rescue Critterz Program

To celebrate the contributions of those devoted to the rescue and rehabilitation of injured and abandoned animals, a percentage of sales for each of the six new carded mini bandaged critterz will be donated by Little Critterz to various organizations specializing in specific areas of this important effort. Your organization would choose one of our Rescue Critterz to adopt – preferably an animal that you do have experience with in your rescue and rehabilitation efforts. Little Critterz will donate 2% of sales (based on actual selling price) for each of this adopted Rescue Critter sold to any of our customers. Payment would be on a quarterly basis for your adopted Rescue Critter for a 1 year period. We could also design a Rescue Critter specifically for your organization but sales would be open to all of our customers. We would announce your participation in the program and a link to your organization's website on our website, email newsletters to our customer base and/or print material. Please contact Roberta@littlecritterz.com to learn more about how you can participate in this program.
